

Appendix 2 (b) – AI Use Declaration Form for Assessments (Students)

(Applicable to all assessments including thesis/dissertation/research reports)

- ☒ I hereby declare that part of this submitted assessment contains contributions generated through the use of AI software, and that such use is consistent with the permissible usage stated in the AI Use in T&L Activities Declaration Form, the assignment briefing, or the assessment guidelines, and is in line with good academic practice.

The content submitted may still be regarded as my own work. I understand that as long as my use falls within the category of “permissible use” as defined in the summary/guidelines for the assessment, this declaration will not have any direct impact on the grade awarded.

I acknowledge the use of software for the following purposes [e.g., preparation of thesis writing]:

NO.	ITEM	USAGE
1	Learning support and concept clarification	Level 2 <i>ChatGPT was used to help understand core concepts related to deep learning, transfer learning, semi-supervised learning, Macro F1-score, class imbalance, and cloud-based mobile deployment.</i>
2	Writing, rephrasing, and grammar checking	Level 1 <i>Grammarly was used to rephrase selected sentences, improve academic writing style, correct grammar, and refine sections.</i>
3	Project organization and flow checking	Level 2 <i>Gemini was used to suggest and review the structure and flow of the P2 thesis, and presentation slides to ensure the content was arranged clearly and logically.</i>

4	Code debugging and explanation	Level 2 <i>Gemini (in Google Colab) was used to assist with code debugging, implementation-related issues, and to explain the errors.</i>
5	Generate wound healing image for demo video testing	Level 1 <i>Claude was used to generate a slightly healed wound image from the chronic wound image provided. This is to test the model performance and prediction accuracy.</i>

If no AI was used;

☐

I hereby declare that no AI software was used in completing this assessment.
